

Hello! Thanks for purchase.

You need to install these fonts:

1. Roboto - <https://www.fontsquirrel.com/fonts/roboto>

Images

All images have been removed from this template and you will see image placeholders on where you can add images. To add an image, just click on the image icon and choose your image.

If the image goes on top of other elements on the page, fix this by right clicking the image and choose Send Back from the options.

To edit page number, name company, address of website go to the master slide:

1. Menu 'View'
2. Select Master
3. Select 'Slide Master'
4. Modify or delete
5. Save
6. Close the Master Slide.

How to use icons in the Power Point Template

Template have vector icons and you can find them in the end of the presentation where you can copy paste them to any slide.

How to install color themes:

At first, you should show hidden files on your system.

Put folder "Color Themes" into `C:\Users\XXX\AppData\Roaming\Microsoft\Templates\Document Themes\Theme Colors`.

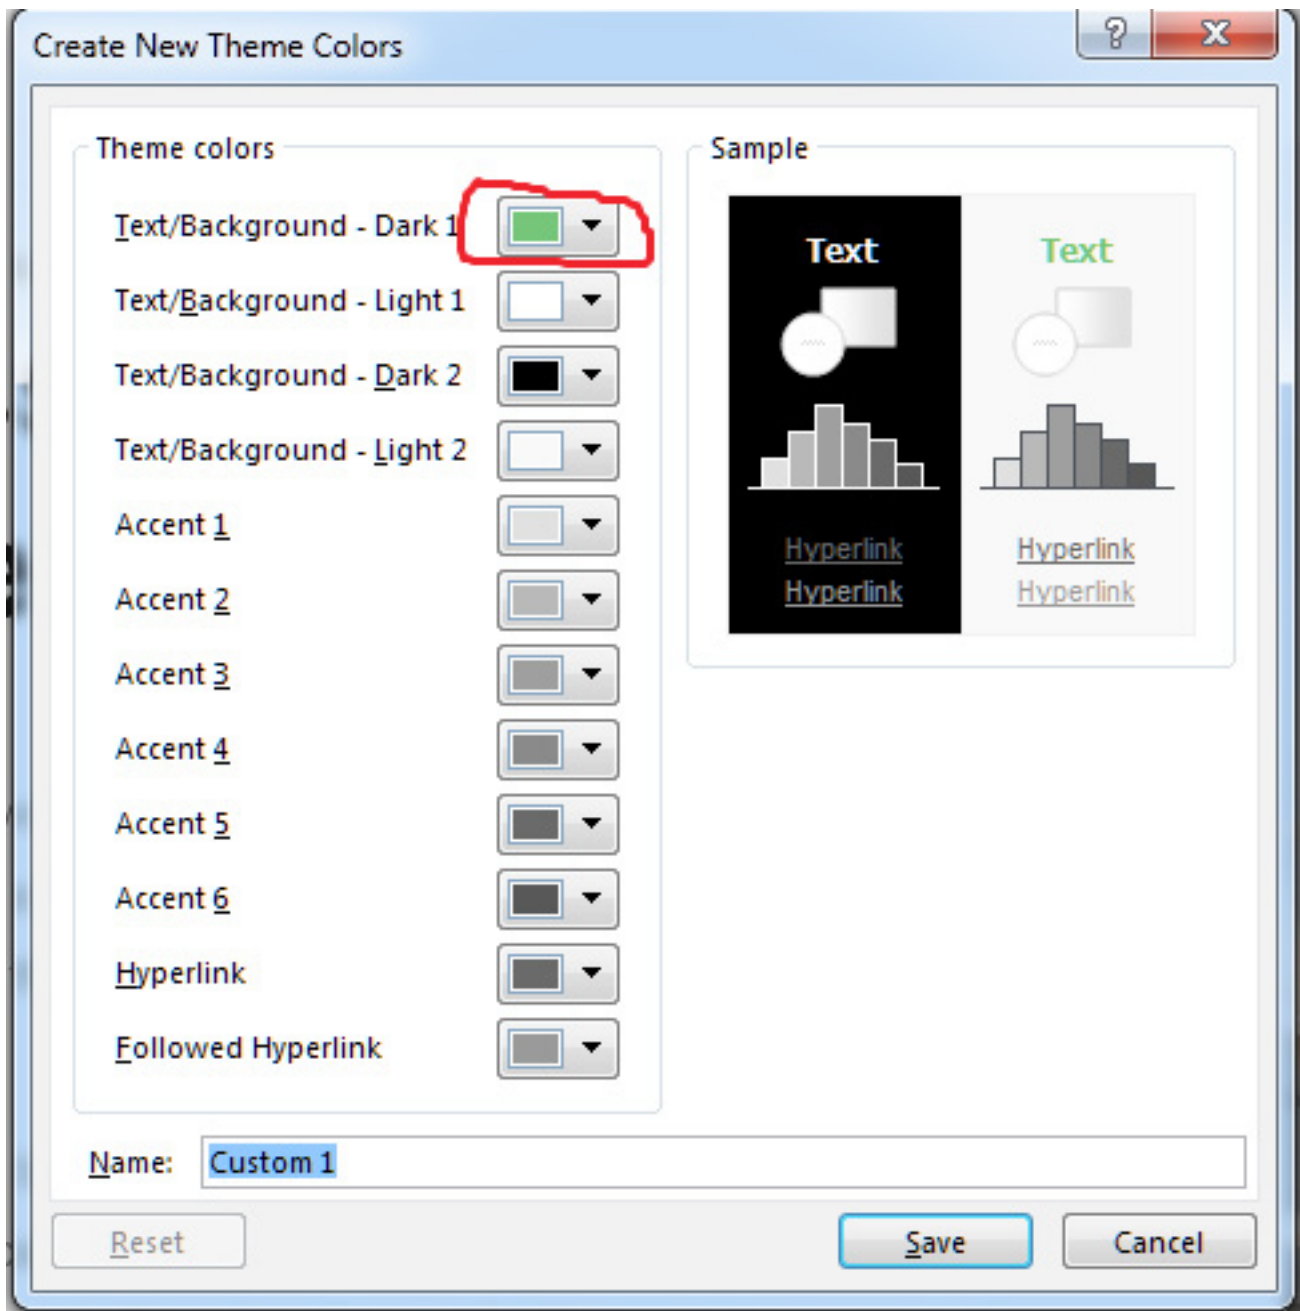

How to choose or change color theme

To change the colors, click the drop-down arrow in the Variants gallery, and then click Colors, > select the desired theme colors, then click on right mouse button, choose Apply to All Slides.

To customize theme colors:

Sometimes you might not like every color included in a set of theme colors. It's easy to change some or all of the colors to suit your needs.

From the Design tab, click the drop-down arrow in the Variants group. Select Colors, then click Customize Colors. A dialog box will appear with the 12 current theme colors. To edit a color, click the drop-down arrow and select a first color (Text-Background-Dark one) . You may need to click More Colors to find the exact color you want. You can also replace other colors.
